

Plantronics Unified Communications Portfolio

With a focus on clear, consistent, and reliable voice collaboration, Plantronics is dedicated to partnering with enterprises to provide superior audio devices for unified communications deployments. The Plantronics Unified Communications Portfolio offers a broad range of solutions for diverse working styles, with high-quality audio and world-class technical support.

SPECIFICATIONS	 Voyager 8200 UC	 Voyager Focus UC	 Voyager 6200 UC	 Voyager 5200 UC/Voyager 3200 UC	 Voyager 4200 UC Series
CONNECTS TO	PC + smartphone/tablet	PC + smartphone /tablet	PC + smartphone/tablet	PC + smartphone/tablet	PC + smartphone/tablet
RECOMMENDED FOR	Users working with PC and smartphone/tablet devices in distracting environments	Users with extensive PC and smartphone/tablet communications in noisy environments	Office and remote professionals who want to always be ready to take a call, but can also easily remove earbuds when collaborating face to face	Mobile professionals who want to make and take calls hands free without noise disruption wherever they are ³	Office-based professionals who use both PC and mobile devices and spend a large part of their day communicating and collaborating
WEARING STYLE	Over-the-head (stereo)	Over-the-head (stereo)	Neckband	Over-the-ear (B5200); in-the-ear (B3200)	Over-the-head (monaural or stereo)
ROAMING RANGE¹	Up to 98 ft/30 m	Up to 98 ft/30 m	Up to 98 ft/30 m	Up to 98 ft/30 m	Up to 98 ft/30 m
WIRELESS FREQUENCY	Bluetooth® v4.1	Bluetooth v4.1	Bluetooth v4.1	Bluetooth v4.1	Bluetooth v4.1
AUDIO PERFORMANCE	Dual-mode active noise canceling (ANC), mobile wideband compatibility, A2DP, AVRCP, DSP, HFP, HSP	Active noise-canceling (ANC), immersive audio, wideband (voice), hi-fi stereo, A2DP, AVRCP, DSP, HFP, HSP	Active noise canceling (ANC), A2DP, DSP	PC and mobile (HFP 1.6) wideband, echo cancellation, A2DP	Wideband (voice), hi-fi stereo (B4220), A2DP, AVRCP, DSP, HFP, HSP
HEARING PROTECTION	SoundGuard DIGITAL, G616, TWA	SoundGuard DIGITAL, G616, TWA	SoundGuard DIGITAL, G616, TWA	SoundGuard DIGITAL	SoundGuard DIGITAL, G616, TWA
MICROPHONE NOISE REDUCTION	Boomless four-mic performance for dynamic noise reduction	Three mics offer dynamic noise reduction	Four boomless omnidirectional mics for dynamic noise reduction	Four adaptive mics in model B5200 and three mics in model B3200 offer dynamic noise reduction and WindSmart technology	Two mics: one unidirectional, one MEMS-directional
CALL CONTROL	Call answer/ignore/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-	Call answer/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-	Call answer/ignore/end, mute, volume +/-
TALK TIME²	Up to 20 hours talk time; 24 hours listen time	Up to 12 hours	Up to 9 hours talk time; 16 hours listen time	Up to 7 hours; up to 21 hours with charging case (B5200); up to 6 hours; up to 16 hours with charging case (B3200)	Up to 12 hours
LIMITED WARRANTY	One year	One year	One year	One year	One year
MODEL NUMBER	B8200; B8200 USB-C (stereo)	B825; B825 USB-C (stereo)	B6200; B6200 USB-C (stereo)	B5200 (over-the-ear); B3200 (in-the-ear)	B4210 USB-A, B4210 USB-C (monaural); B4220 USB-A, B4220 USB-C (stereo)

1. Features adaptive power, which optimizes for range and talk time to save battery life and maximize density.

2. Performance depends on battery type and may vary by device.

3. Answer/ignore voice commands are currently for smartphone only.

4. Unlimited talk time with deluxe charging cradle kit, comes standard with Savi 745/445. Available as an accessory with Savi 740/440.

MDA220 USB

The MDA220USB accepts both corded and wireless USB headsets, and lets users connect to and switch between calls from PCs and desk phones.⁵

MSRP \$149.95

TECHNOLOGY LEGEND

A2DP

A Bluetooth profile that allows high-quality audio content to be streamed from one device to another. Listen to streaming media, music, and navigation through your headset.

Active Noise Canceling (ANC)

Technology that reverses surrounding sound waves to cancel low-frequency noise in order to isolate and minimize ambient noise the user can hear.

Adaptive Power

Automatically downshifts to low power when the wireless headset is close to the base to save battery life and maximize density.

Digital Signal Processing (DSP)

Mathematical manipulation of an information signal to actively reduce background noise for improved sound quality, including equalization, acoustic echo cancellation, noise reduction, and audio leveling.

Dynamic EQ

Optimizes voice quality on calls and automatically adjusts EQ settings when listening to music or for multimedia playback.

Hi-Fi Stereo

Full-range, dual-channel audio playback capable of frequencies from 20 to more than 20,000 Hz.

Immersive Audio

Specially designed ear cushions and headband reduce background noise for increased clarity and comfort.

Smart Sensor Technology

Built-in sensors deliver automatic functionality, such as answering a call by placing the headset on and automatically transferring calls between smartphone and headset.

SoundGuard

Acoustic limiting for protection against sounds exceeding 118 dBA per Telecom Industry Standards.

SoundGuard DIGITAL

All the benefits of SoundGuard plus anti-startle protection, which detects and eliminates sudden increases in sound, and time-weighted average (TWA) control, which prevents average daily sound exposure from exceeding 85 dBA.

USB-C

For connection to devices using the latest USB 3.1 standard with a smaller plug that allows connection in either direction.

Wideband

Frequency range up to 6,800 Hz. Meets TIA-920 standard for genuine wideband response.
